PRASHAM DHOKE

CONSTRUCTION PROJECT CO-ORDINATION | REFURBISHMENT | MAINTENANCE

Belfast, UK | 07747 947762 | PrashamDhoke159@gmail.com

PROFESSIONAL PROFILE

Construction and project-management professional with an MSc in Construction & Project Management from Queen's University Belfast and a Bachelor of Architecture. Combines UK multi-site maintenance operations with architectural project coordination and retail refurbishment/fit-out experience. Skilled in coordinating contractors and specialist trades, scheduling planned and reactive works, tracking progress and expenditure, maintaining accurate records, supporting inspections and compliance, and communicating with property stakeholders. Improved reactive-job tracking, contributing to a 30% reduction in outstanding jobs within the first quarter. Seeking to bring an organised, detail-focused and commercially aware approach to a Belfast construction project-coordination team.

KEY SKILLS RELEVANT TO PROJECT CO-ORDINATION

Project activity & scheduling	PPM schedules, work orders, progress follow-up, prioritisation
Records & documentation	Maintenance logs, condition reports, asset registers, snagging and handover records
Stakeholder coordination	Contractors, specialist trades, landlords, property agents, internal teams and consultants
Commercial awareness	Budget tracking, expenditure authorisation, monthly cost reporting, Excel cost tracking
Quality, safety & compliance	Site inspections, compliance audits, H&S, building regulations and quality checks
Refurbishment & fit-out	Fixtures and fittings, electrical/lighting upgrades, interior improvements and live-site coordination
Project documentation	Technical drawings, specifications, material schedules and progress reports
Planning & digital tools	MS Project, ASTA Powerproject, MS Excel, AutoCAD, Revit, BIM 360, Navisworks

PROFESSIONAL EXPERIENCE

Assistant Maintenance Manager | Sep 2025 – Present

Ladbrokes | Entain plc | UK retail property portfolio

- Coordinate planned preventative maintenance (PPM) schedules and reactive works across a UK-wide retail estate, prioritising work to minimise operational downtime.
- Issue and coordinate work orders with external contractors and specialist trades, monitor progress, follow up outstanding tasks and sign off completed work against agreed quality standards.
- Maintain up-to-date maintenance logs, condition reports, PPM records and asset registers to support accurate reporting, lifecycle planning and capital-expenditure forecasting.
- Conduct site inspections and compliance audits, checking works against health and safety legislation, building regulations and company requirements.
- Track maintenance budgets, authorise expenditure and report monthly cost performance to senior stakeholders; liaise with landlords, property agents and internal teams on lease obligations, dilapidations and capital improvements.
- Coordinate interior refurbishment and fit-out activity across 1-5 retail shops concurrently, including fixtures and fittings, electrical/lighting upgrades and general improvements. Work with approved contractors under senior oversight, maintaining snagging and handover records while limiting disruption to live trading.
- Improved the PPM tracking process, contributing to a 30% reduction in outstanding reactive jobs within the first quarter.

Senior Intern - Architecture & Project Management | Jan 2023 – Jan 2024

Studio Adroit Architects | Residential and commercial projects

- Supported project coordination from concept design through construction phase, helping align client requirements, design deliverables, programme and budget.
- Prepared technical drawings, construction documentation, specifications, material schedules and progress reports for client and contractor review using AutoCAD, Revit and SketchUp.
- Visited sites to monitor progress, identify snagging issues and check work against design specifications, quality expectations and project timelines.
- Coordinated with structural engineers, MEP consultants and site teams to resolve technical issues and support programme continuity.

EDUCATION

MSc Construction & Project Management | Queen's University Belfast | September 2025
Relevant modules: Project Planning & Control; Procurement & Contract Administration; Construction Economics & Finance; BIM in Practice; Leadership & Organisation; Sustainability.

BArch (Bachelor of Architecture) | Jul 2024
Relevant modules: Estimation, Costing & Specifications; Construction & Building Law; BIM & Digital Architecture; Building Materials; Advanced Construction Techniques.

SELECTED PROJECT & TECHNICAL EXPERIENCE

Retail Shop Refurbishment & Fit-Out Programme | Ladbrokes / Entain plc

- Coordinating concurrent shop refurbishments and fit-outs, including initial scoping, fixtures/fittings, electrical and lighting upgrades, general interior improvements, contractor liaison, snagging, site records and handover documentation.

Belly Shop Railway Colony Redevelopment, Nagpur | Nov 2023 - Jun 2024

- Led site analysis, design and master planning for a residential and communal-space redevelopment, preparing architectural drawings and a project report. Integrated sustainable-building proposals and co-authored a research paper published by IJIRSET.

TECHNICAL SKILLS

Project planning & reporting: MS Project, ASTA Powerproject, MS Excel, risk registers, cost tracking

Design & BIM: AutoCAD, Autodesk Revit, SketchUp, BIM 360, Navisworks

Maintenance & compliance: PPM scheduling, CAFM/CMMS systems, asset registers, condition reports, compliance audits, snagging

Visualisation: Lumion, V-Ray, Enscape

ADDITIONAL INFORMATION

Publication: IJIRSET research paper, "Understanding the Design Considerations for Redevelopment of Housing Colony: Study of Belly Shop Railway Colony".

Leadership: Student Representative, NASA (National Association of Students of Architecture); Team Leader, Heritage Documentation Project, Rajasthan.

Languages: English (fluent), Hindi (native), Marathi (native).
